# Perinatal Mental Health Support

The Specialist Perinatal mental health team are dropping into the hubs to offer an opportunity for you to chat in a safe place.

Many new mums find they are finding life difficult ante-natal or with baby up to 2 years. Many families struggle with feelings of overwhelm, tearfulness, feeling isolated intrusive thoughts, doubting their bond with baby or worrying excessively about babies next stages.

Come and chat with us in the hubs, if you would like our help.

# Parent carer panel

**Join our Family Hubs Parent Carer Panel and tell us what you think about our services for families with children aged 0-19 (25 with SEND) in Derby.**

## Who are we looking for?

We want to hear from parents and carers from all areas of Derby to ensure that all communities of Derby are represented.

You do not need to have taken part in anything like this before. As long as you're willing to share your experiences of having a baby, caring for a child and accessing services for your children or young people then we'd love to hear from you.

## What is in it for you?

Not only will you be contributing ideas to improve services for all children, young people and families across Derby, there will be opportunities for training and development too.

You will meet other parents and carers when taking part in the panel, and children are also welcome. Our Family Hubs staff will be available to support these sessions.

## Where and when are the meetings?

We work with the panel to find a time that works for as many of the group as possible. Meetings will be held at a Family Hub or community venue. There will also be online sessions and surveys for those who are unable to attend the face-to-face meetings. Sessions will take place approximately every eight weeks.

## What will happen to the information you share?

We are interested in your experiences. The information you share will be used to shape services in Derby City. We will take notes from the meetings, but no personally identifiable information will be recorded.

## How to get involved?

For more information or to register your interest email [MackworthMorleyFamilyHub@derby.gov.uk](mailto:MackworthMorleyFamilyHub@derby.gov.uk) text 07812 301430.

# SEN Support

## NEW! Sleep workshops | Booking required

For parents and carers of 0-19 year olds who are or may be neurodiverse.

### Teenagers and Sleep

Teenagers often undergo huge changes in their sleep patterns, naturally wanting to settle and wake later if they can. Teenagers are not being deliberately awkward however; the influences of hormones, peer pressure, school stresses and screens all make sleep much more challenging. Add additional needs into the mix and it can be hard to know how to help; sleep often becomes a battleground. Join Nickie Sutton, Specialist Sleep Practitioner, for a workshop on how being a teenager with additional needs affects sleep and practical advice on what you can do to help (no taking away of screens!)

**Tue 30 Sep**      6-8pm      Online (please contact Mackworth Morley FH for the link)

### Pathological Demand Avoidance and Sleep

Is your child demand avoidant? Are you having a battle to help them settle and stay asleep? Sleep can be a huge trigger for children and young people with PDA. Everything about it - the routines, expectations, even how their body feels - they can experience as unwanted pressure that they have to resist (even if they are tired). Join Nickie Sutton, Specialist Sleep Practitioner, as we look at some strategies to help reduce the bedtime battles. These strategies are completely different to normal sleep advice! But have been devised in consultation with parents who have found simple solutions which help.

**Wed 15 Oct**      12:30-3pm      Sinfin FH

### Sensory Processing and Sleep

In order to sleep well we need to feel comfortable and safe. Children and young people with sensory processing differences find it very hard to settle and sleep well because they are often overwhelmed with sensory discomfort. Join Nickie Sutton, Specialist Sleep Practitioner, as we look at the reasons why children and young people with sensory processing differences have difficulties sleeping and why commonly suggested sleep strategies often don't work. We will look at how the different senses impact on sleep, behaviours that you may see, and simple effective strategies to help.

**Wed 12 Nov**      6-8pm      Online (please contact Mackworth Morley FH for the link)

### Autism and Sleep

Sleep is much harder for autistic children and young people for reasons that they cannot control; there are biological differences which get in the way. You may have had advice before, but normal sleep strategies often don't work and are based on out of date information. Join Nickie for a workshop on how being autistic affects sleep and what you can do to help (no taking away of screens!)

## Our Maternity and Neonatal Improvement Programme

We are on an improvement journey to help us deliver the highest quality care and best experience to women, birthing people and babies.

### What we are doing to make care safer for you:

#### Working with you

We work in partnership with our Maternity and Neonatal Voices Partnership to [listen to feedback and ideas](#) and build improvements around what matters to you. We have a Patient Safety Partner and have hosted our first community conversation event with more events to follow.

#### Delivering national best practice

We have embedded a new approach to fetal monitoring and management of post partum and major haemorrhage in line with evidence-based best practice.

#### Improved against national targets

Our compliance against national maternity safety measures such as Ockenden and Saving Babies Lives has improved.

#### Home birth service to reopen

The home birth service will reopen on 6 October 2024 so if you are due after this time you can consider a home birth.

#### Wireless monitoring

Telemetry wireless monitoring is now available to support mobility during labour and offer women and birthing people more choice.

#### Privacy during induction

In response to your feedback we have created dedicated private spaces for intimate examinations during the induction process.

#### Reducing delays

We are improving scan and induction pathways to [reduce delays](#)

#### Recruited more staff to care for you

We have [32 newly qualified midwives](#) joining our organisation and extra support in place to nurture, develop and grow our current staff.

We have recruited [specialist roles](#) in fetal monitoring, maternal mental health and midwives who focus on supporting and developing colleagues.

We want to keep you updated about the work we are doing to make our maternity and neonatal care safer. Read the latest about our Maternity and Neonatal Improvement Programme and how you can get involved at [www.uhdb.nhs.net](http://www.uhdb.nhs.net) or scan the QR code
